**FOSS**

### **Extended offer: Trade-in your old NIR Analyzers for the new FOSS XDS Analyzer**

Due to the overwhelming response, FOSS NIRSystems will extend the trade-in program for existing FOSS NIR Laboratory Analyzers. Generous trade-in allowances will still be given toward the purchase of a new XDS Near-Infrared Analyzer.

XDS NIR from FOSS ensures superior analytical performance with increased sensitivity and precise instrument matching to enhance method development, minimize implementation time and ensure seamless method transferability – all in one hot-swappable, networkable, modular analyzer platform.

For details, please contact your local FOSS representative or FOSS NIRSystems directly. This is a limited time offer and may not include all market segments.

FOSS NIRSystems, Inc., a unit of FOSS A/S of Denmark, is the world's leading manufacturers of near infrared analytical instruments. Headquartered in Laurel, MD, FOSS NIRSystems provides a complete range of rapid scanning, near-infrared spectrophotometers for laboratory and process applications. Sales, service, and support offices are located on nearly every continent to assist local personnel in 65 industrial centers worldwide.
